HOW TO INTEGRATE WITH PPPG:

1. SIMPLE ORDERING PLATFORM (SOP)

A software development kit (SDK) that allows web developers to easily add FUJIFILM Personalized Photo Products Group products to their existing or new website. SOP provides the builder and the customer adds imagery to the product. No knowledge of specs or XML necessary.

2. SMART PUBLISHING API (SPA)

A software development kit (SDK) that allows mobile developers to easily add PPPG products to their mobile app. Provides the entire shopping experience, including the page layout and ability to navigate categories and products and perform checkout. No knowledge of specs or XML necessary.

3. DIGITAL INTEGRATION SERVICES (DIS)

This workflow requires the client to develop the Application Program Interface (API). Requires the ability to submit order manifests, render products to our specs, and receive statuses from PPPG. We provide access to our portal containing: API documentation, client info, specs, assets, and a test plan.

Timeline for integration is dependent on your development team and requires a completed Integration Form and Credit Application to begin the process.

PPPG also offers a White Label Program within DIS, which includes:

- Use of our shipping account
- Branded shipping labels
- Option to customize back print information
- Access to the Client Service Portal to review orders, upgrade shipping, and remake orders
- Access to our full product catalog of over 300 products
- Capacity to manage multiple clients

Interested in pursuing the next steps?

Contact your FUJIFILM PPPG sales representative for more information regarding PPPG fulfillment and the best type of integration for your business.
